Quarantine

No quarantine.

Punching system

Emit punching system will be in use. The competitor is responsible for using a working emit card, and that the emit card number is the same as in the start list. Competitor who runs with a wrong emit card will be disqualified.

Emit card changes possible until Friday 18.9. 20:00 to [risto.kivinen\(at\)resultfellows.com](mailto:risto.kivinen@resultfellows.com). After this, to the Info at the event center. Emit cards can also be rented from the Info for the price of 5€. Unreturned emit card will induce a 70 € fee.

Emit card can be tested at a sample control close to the Info.

Number bibs and emit safety slips

Number bibs are in the event center, in folders by the class. Located close to the Info. Use hand sanitizer before picking up your bib.

A-finals use new number bibs, and these can be collected soon after the qualification results are finalized. B-finals use the same bib as in qualification. Bring your own safety bins.

Emit safety slips are available at the starts.

Procedure at the start

The way to the start goes through city area. Be aware of other traffic and use pedestrian crossings. It is forbidden to stray away from the signed way to the start.

Use hand sanitizer before moving into the start zone.

3 min: Call to start zone by start time. Control descriptions.

2 min: Emit formatting (0-punching unit).

1 min: Moving to map basket of own class. Make sure you are by the right map basket.

0 min: Start.

Control descriptions

Control description are handed out in the start and also printed on the map.

Clothing transport

There is a possibility to leave your clothes to be transported back to the event center from starts 1 and 3. **No clothing transport from start 2.**

Bring your own bag for clothes. Clothes can be picked up from the event center.

Finish

Competitors punch at the finish line, after which they will directly continue to emit card reading.

After the finish, the competitor will leave his/her map to a designated container (to lessen the risk of corona infections). Maps will not be returned but can be printed from the event web site after the competition.

Map

Sprint orienteering map, printed 9/2020. Map maker: Vesa Elovaara. Scale: H/D55- 1:3000, other classes 1:4000. Map size A4-A3.

New ISSprOM 2019 symbols are used in the competition. Be precise with forbidden areas and symbols. There will be a sample map in the start featuring the forbidden symbols and colors. Competition map won't be shown before the start.

- Useimmat karttamerkit ovat samanlaisia kuin vastaavat suunnistuskartan merkit metsämaastossa (ISOM2017-2)

Suurimmat muutokset aikaisempaan sprinttisääntöön verrattuna:

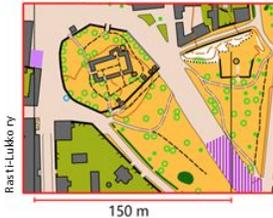

- Läpipääsemätön kasvillisuus (vaaleampi)
- Monitasoinen alue (vinoviivitus)

Muita näkyvimpiä muutoksia:

- Puun merkeissä valkoinen sisus tai kehys
- Ylitettävä muuri 1- tai 2-puoleinen
- Pihamaan reunaviiva pakollinen
- Alueen ruuhkaisuus on mahdollista esittää
- Mustat polkumerkit suurempia
- Violetti kielletty alue vinoristikko

- Kartan mittakaava on 1:4000. Myös suurennos 1:3000 on luvallinen ja mahdollinen.
- Taajama-alueilla kannattaa välttää 60 % vihreän värin käyttöä, että läpipääsemätön 100 % vihreä olisi mahdollisimman selkeästi erilainen ja erottuva.

Special characters in competition map:

- ✘ *Puutarhakeinu, leikkiteline tai opastaulu*
- *Frisbee golf kori, jätesäiliö tai iso valopylväs*
- ◇ *Frisbee golf heittoalusta*

Terrain

Qualification: Living neighborhood, parks, and some good surfaced forest. 60 % grass, 30 % hard surface and 10 % paths or forests.

Finals: Typical varied city area with parks and build environment. 70 % hard surface, 30 % grass.

Terrain guards and forbidden areas

There are about 60 guards in the terrain making sure of the safety and that rules are followed. The guards will not advise the runners unless a real danger is about to emerge. If a competitor breaks the rules, a guard will make a disqualification proposal. The breaking of the rules cannot be reversed by the competitor, for example, if a competitor crosses a forbidden vegetation, it cannot be fixed by returning the same route (and doing the same error again). Same applies for all other forbidden symbols and areas. Some of the forbidden areas / symbols are marked in the terrain with red-yellow forbidden area marking.

In both qualification and finals, all competitors will need to cross a forbidden road via crossing point (marked on map). The crossing points are marked on the terrain with small barrels on both sides of the road at the crossing point. The road must be crossed between those barrels. Breaking this rule will lead to disqualification.
